

FRIENDS OF BURNLEY GARDENS INC

## *Invite you to hear about **Herb Trees, with Jill Bryant***

**Tuesday 17 May 2022**

When we think of herbs, we think of small ground-covers and herbaceous plants, but many of our most prized herbs actually derive from quite large trees.

Jill will illustrate her talk by means of living potted specimens of many tree herbs.

**ABOUT JILL:** She has been a gardener for 70 years and passionate about herbs for over 40 years. Throughout all this time she has been very actively involved with the Herb Society of Victoria, and has written many articles for the *Herbage* magazine. Having studied Latin at school and Botany at University, botanic names came easily to her. A Secondary Teacher of English, Literature, History and even Horticulture for 54 years, she is a lover of antiques, and her collection of books and herbal antiques is extensive. Her pill-making machine from the 1850s is her treasure!

**Place:** MB10 Burnley Campus  
**Time:** 7.00pm for drinks and nibbles and 7.30pm for talk  
**Cost:** \$10 (members), \$20 (non-members)  
**Bookings:** TryBooking <https://www.trybooking.com/BZDYS>
